

Brilliant Job Opportunity in the UK

We are looking for a Polocrosse player who has a lot of experience with young horses to come and work for us next year. We have 7 thoroughbreds ranging in age from 3 to 6 that are broken and in need of bringing on. Both my brother and I are at university, making it difficult to spend enough time on them. The job would predominantly involve the horses, there are a few older ones to be got fit as well, but work on the farm would also be available. It is 400 acres, producing organic beef cattle and some arable in the lovely county of Suffolk. A bed and three meals a day in the 16th century farmhouse would be provided as well as additional pay. There would be the opportunity to play A/B grade with Kent Target club on a more experienced horse.
